VIP Executive Launch / 3-month Coaching

This is a one-on-one experience in your office followed by a 3-month ongoing coaching program. During our initial Implementation Day, we are purging and setting up new systems for getting control of your daily workload—both physically and electronically. Once you establish new habits around these systems, we introduce more tools over the next 3 months to create additional new habits. Our coaching schedule (via live Zoom or telephone) is determined by your needs and desires. If you're in, I'm in!

Cost: \$4,200

(\$1,200 for Implementation Day and \$1,000 for each month of coaching)
